25. CCMD Pilot Project. (11-4618)

**Don Chadwick, A-C discussed the Countywide Contract Management Division (CCMD) pilot project of providing risk-based monitoring of County contracts. He stated that the County currently has over 7000 contracts totaling over \$15 billion and that CCMD currently only reviews contracts for sub-vented social service departments where CCMD can bill for the services. Mr. Chadwick indicated the intent of the pilot project is to monitor contractors Countywide based on risk rather than based on a department's willingness to pay for the monitoring reviews. In addition, CCMD plans to review departments' contracting functions. Mr. Chadwick stated they plan to complete risk assessments on County contractors and departments' contract management functions and present the results with an Audit plan to the Audit-Committee in January 2012.**

**Aggie Alonso, A-C provided more detail of the plan which entailed conducting a Countywide risk assessment in which the two components to be reviewed would be departmental contracting functions and County contractors. This review would result in identifying both the high risk departments and contractors. Mr. Alonso also indicated they would provide information on the cost of additional resources that would be required to the Audit-Committee in January 2012. Louisa Ollague requested that the cost assessment include the amount necessary for the new services and the cost to keep the current services.**
